

M. Almudena Prieto

Senior astronomer, Instituto Astrofisica Canarias, Astrophysics Dpto., University La Laguna, Tenerife
Associate Scientist, University Observatory of Munich

Research interests

Black Hole accretion
Physics of star formation
High Angular Resolution Instrumentation

Qualifications

1986	M. Sc. Physics, Univ. Complutense Madrid
1989	PhD Physics, Univ. Complutense Madrid

Career path

1986 – 1989	Junior Fellow, VILSPA IUE Observatory of the European Space Agency (ESA) Co-investigator for the End of Life final Calibration of the LWP camera on board the International Ultraviolet Observatory (IUE)
1989 – 1992	ESA postdoc at the Space Telescope European Coordination Facility, Garching
1992 – 1993	Senior Fellow Consejo Superior Investigaciones Cientificas at the X-ray ROSAT group of the Max-Planck Inst. extraterrestriche Physik
1993 – 1996	Instrument scientist at X-ray ROSAT group, Max-Planck Inst. extraterrestriche Physik Lead, end-of-life calibration ROSAT- PSPC camera
1997 – 1999	Senior Fellow - re-incorporation Spanish researchers abroad, Spain Science – Ministry of Education, Inst. Astrofisica Canarias Principal Investigator <u>ATLANTIS</u> – first Adaptive Optics project for the Gran Telescopio Canarias, GTC
1999 – 2003	Faculty astronomer of the European Southern Observatory, Garching Lead, VLT Infrared instrumentation service-mode operation
2003 - 2006	Senior astronomer, Max Planck Inst. fuer Astronomie in Heidelberg Principal Investigator <u>PARSEC</u> project
2004 – present	European Principal Investigator of <u>FRIDA</u> Adaptive Optics instrument for GTC
2005 – present	Lead, <u>PARSEC</u> project

2006 – present	Senior astronomer, Inst. Astrofisica Canarias & University of La Laguna, Tenerife
2020 – present	Associate Scientist, Computational Astrophysics Dpto. CAST , Munich University - Observatory
